

**IN THE CLAIMS:**

Please cancel claims 1-9 without prejudice to or disclaimer of the subject matter recited therein.

Please add new claims 10-16 as follows:

**LISTING OF CURRENT CLAIMS**

Claims 1-9. (Canceled)

Claim 10. (New) A massage pillow comprising:

- 5 a) an external pocket having:
  - i) an interior pocket chamber;
  - ii) an external pocket opening in a peripheral wall; and
  - 5 iii) a external latch device selectively opening and closing the external pocket opening;
- b) an internal pocket movable into and out of the external pocket and having:
  - 10 i) an pipe chamber formed in an interior of the internal pocket such that, when the internal pocket is located in the interior of the external pocket, the pipe chamber is movable within the interior pocket chamber;
  - 15 ii) a pipe opening located in a peripheral wall of the internal pocket aligned with and connected to the external pocket opening; and
  - 20 iii) an internal pocket opening located in a peripheral wall of the internal pocket, the interior pocket chamber communicating with the exterior of the external pocket through the internal pocket opening;
- c) a filler inserted into the interior pocket chamber; and
- d) a vibrator inserted into the pipe chamber and being movable between a plurality of predetermined positions within the filler.

Claim 11. (New) The massage pillow according to claim 10, wherein the external pocket and the internal pocket are made of a woven cloth.

Claim 12. (New) The massage pillow according to claim 10, wherein the filler is made of a plastic polymer material.

Claim 13. (New) The massage pillow according to claim 10, wherein the external latch device is one of a zipper and an adhesive tape.

Claim 14. (New) The massage pillow according to claim 10, wherein the internal pocket opening is sewn closed.

Claim 15. (New) The massage pillow according to claim 10, further comprising an internal latch device selectively opening and closing the internal pocket opening.

Claim 16. (New) The massage pillow according to claim 15, wherein the internal latch device is one of a zipper and an adhesive tape.
